

Needs Assessment for Microsoft Power Platform

Work with our experts to solve key challenges

Simplify the way you do business and make your favorite tools do more for you using Power Platform to connect and streamline everyday processes and systems. During the engagement, we'll look work together to help you find the sticky parts that slow you down and resolve them.

Explore what transformation looks like in action

Through our partnership with Microsoft, we can help you imagine a future state for your business that more efficient and data-driven. The Needs Assessment engagement starts with a review of your business followed by a guided discovery and visualisation of solutions. It ends with a clear, actionable picture of how we can help you reach your goals.

What will we learn?

See all the ways your organization can improve processes and efficiency without requiring complex solutions.

Who should attend?

Include business decision makers (BDM), executive-level sponsors, managers, and low-code champions or super users.

What happens after?

Get a scope of work for a specific solution or proposal for platform implementation along with success proof points.
