

Power Business Growth and Agility with Exigo Tech's Rapid Azure Deployment offer

We understand that migrating your workloads to Azure can be complex and time intensive, with many areas to address to ensure the security and compliance of your applications and data.

Exigo Tech's Rapid Azure Deployment streamlines and simplifies the process by handling the solution design, deployment process and pre-requisites so you can create value from your digital estate.

Through a series of workshops, we will work with you to:

- Define the strategy for your cloud adoption in line with your business KPI's, and your governance and compliance needs
- Migrate the portfolio of workloads to Azure
- Optimise workload costs, enhance cloud security and leverage Azure's flexibility and scalability for operational success

Unlock Your Potential with Azure

Achieve Efficiency

- Maximize ROI with cloud automation
- Leverage unmatched performance and resilience

Maximise Value

- Reliably control cloud spend
- Optimize workload costs

Innovate with Agility

- Scale seamlessly
- Infuse intelligence to unlock new scenarios

Base Requirements for customers:

- Hyper-V, VMware, or Physical Servers
- Up to 10 virtual machines included in offer
- Server OS at Server 2012 R2 or newer
- Sufficient internet bandwidth
- Up to 3 sites requiring connectivity to Azure. Minimum Bastion. *Express route not included*
- Training & Documentation
- Security hardening including Azure best practices, including perimeter security, VM security and network security

Options:

The below are not included in the offer, but can be available for additional cost

- Additional VPN configurations
- Additional virtual machines
- Project Manager assigned
- SQL Assessments & SQL migrations to Azure SQL
- Azure Express Route
- Ongoing Managed Services
- Existing tenancy required. If none, baseline M365 security with Intune to be added
- BCDR review and implementation

Why Exigo Tech?

Exigo Tech is your dedicated partner on the path to Azure. With our team of Azure experts, we manage every stage of your migration, ensuring a seamless and disruption-free transition. Our services include:

Assessment:

We conduct an in-depth evaluation of your current infrastructure to create a tailor-made migration strategy.

Migration:

Our experts execute the migration process, minimising downtime, and disturbances.

Optimisation:

We help you leverage Azure's full potential to maximise your return on investment.

Get Started with your Rapid Azure Deployment today.
