

## Power Platform – Workshop 1 Week

Exigo Tech brings the best of technology together with the Power Platform to streamline and automate workflows, reduce manual effort, minimize errors, and optimize employee productivity.

### Description

The Power Platform by Microsoft is a suite of low-code/no-code tools that helps organisations create custom business solutions, automate processes, analyse data, and build intelligent applications. This approach enables rapid application development and process automation, allowing organisations to respond quickly to changing business needs. By streamlining and automating workflows, the Power Platform reduces manual effort, minimises errors, and boosts employee productivity, resulting in increased overall productivity within your organisation.

As a Microsoft Solutions Partner, Exigo Tech collaborates closely with clients to deliver top-notch technology solutions for their

businesses. In line with this, we are pleased to offer our Consulting Offer for Power Platform, one week workshop specifically designed to provide you with valuable insights into the benefits of incorporating the Power Platform into your organisation.

During this workshop, you will have the opportunity to engage with one of our highly experienced consultants, who will guide you through the various Power Platform components, including Power Apps, Power Automate, and Power BI. They will shed light on how these components can be effectively leveraged to extend and customise Microsoft apps and services such as Microsoft 365, Dynamics 365, and Azure.

#### Power Apps

Web and mobile application development

#### Power Automate

Process or workflow automation

#### Power Virtual Agents

Chatbots and conversational agents

#### Power Pages

Build secure, data-centric business websites

#### Power BI

Data exploration, analytics and reporting

# The key deliverables of the one-week Power Platform consulting session include:

## Outcome:

Best practices demonstration for each tool

Collaborative workshop to identify your business case

Professional advice on licensing management and implementation

Contact us today to learn more about how we can help you leverage the Power Platform to achieve your business goals.
